INTERNATIONAL ONLINE CONFERENCE

«THOUGHTS AND DREAMS»

Psychology and psychopathology of wartime.

Modern challenges to the professional training and practice of psychotherapists

Ukraine, Kyiv 23 – 25 February 2024

Dear Colleagues!

On February 24, 2022, at five o'clock in the morning, the rf brutally invaded independent Ukraine, expecting to achieve a guaranteed victory in a matter of days. Two years later, Ukraine not only remains undefeated, but also confidently suppresses the invaders, liberating the captured lands.

During these two years, war has become our everyday life. This long way, with its innumerable losses and disasters, through the cold and darkness of a new, terrible winter, under the wail of sirens and the roar of explosions, we must go in order to win our freedom and help all those who have despaired and cannot cope with the psychological trauma they have suffered.

We believe that a space of open dialogue, capable of including a diversity of opinions and containing the weight of unbearable emotions, opens access to hidden resources and a new, deeper experience of community. The difficult years of the war reinforced this belief with direct practical experience.

Creating such a space is the main task of the International Online Conference "Thoughts and Dreams". We invite Ukrainian psychologists, psychiatrists and psychotherapists, as well as our Western colleagues and friends to participate in this event.

The war affected all of us – both military and civilian, those who are on the front lines and those who remain in the rear, those who found refuge in Western countries and those who live in the West providing Ukrainians with comprehensive assistance in our struggle. This international conference will provide an opportunity to exchange and reflect on the life and work experience gained during the war. But we also want to try and look into the post-war future. What will peace be like after the war? What will be the place of Ukraine and Ukrainians in the Europe of tomorrow? What will be the tasks and challenges of psychotherapy in the world in which we find ourselves?

We believe in Victory and Peace throughout the globe!

FORMAT OF CONFERENCE EVENTS

Plenary panel

- during the conference you will have the opportunity to listen to 11 plenary presentations of our guest speakers from Argentina, the UK, Israel, Germany, Poland, the USA, Turkey and Ukraine – leading experts in the field of group analysis, psychoanalysis and psychodrama. The speakers on the plenary panel have extensive experience in working with mental trauma, in crisis and emergency situations, they have been actively involved in volunteer work to provide assistance to Ukrainian healthcare professionals during the war.

Discussion groups

– after the completion of each plenary panel, the processing of the material of plenary presentations will continue in several discussion groups, which will be held in parallel in separate zoom rooms. The participants of the conference, previously distributed into groups, will have the opportunity to share their impressions, exchange views, ask questions and comment on the information received at the plenary panels.

Social Dreaming Matrix

– early birds on Saturday and Sunday during the conference will have the opportunity to start the day by immersing themselves in the world of dreams. Gordon Lawrence's concept emphasizes the social aspect of dreams. It makes it possible to understand the processes that take place in certain groups, organizations and even in society as a whole, and has unconditional therapeutic value. The conductors of the SDM at the conference are Gila Ofer (Israel) and Uri Levin (Israel).

Large Analytic Group

– During the conference, you will have the opportunity to participate in three sessions of large analytic group led by Robi Friedman (Israel) and Kathrin Albert (Germany). A large analytic group is a unique opportunity to immerse yourself in the atmosphere of psychoanalytic research, open communication, exchange of professional experience, achievements, difficulties and means of overcoming them.

Sessions in parallel

- during the conference you will have the opportunity to participate in workshops, master classes and discussions, listen to presentations in the sectional part of the conference, which will be divided into several thematic parallels. Among the speakers you will encounter experienced professionals, training therapists and supervisors, as well as candidates of APPU training programs.
